## EN

Our mission is to contribute to the success of our customers. Always offering much more than the realization of an efficient, functional and durable production line.

Thanks to our experience, skills and capillary organization we are able to provide technical support / technology required for the design, development, implementation and maintenance of our aseptic packaging lines, in particular:

- system design and planning
- preparation of the lay-out
- installation and packaging commissioning
- Training
- supply of original spare parts
- technical assistance

## IT

La nostra missione è quella contribuire al successo dei nostri Clienti. Da sempre offriamo molto di più della realizzazione di una linea produttiva efficiente, funzionale e durevole nel tempo.

Grazie alla nostra esperienza, alle nostre competenze ed alla nostra capillare organizzazione siamo in grado di fornire tutto il supporto tecnico/tecnologico necessario alla progettazione, allo sviluppo, alla messa in opera ed al mantenimento dei nostri sistemi di confezionamento; in particolare:

- progettazione del sistema
- preparazione del lay out
- installazione e commissioning confezionatrici
- formazione ed aggiornamento del personale
- fornitura pezzi di ricambio originali
- servizio assistenza tecnica

## FR

Notre mission est de contribuer au succès de nos clients. Depuis toujours nous offrons beaucoup plus que la réalisation d'une ligne de production efficace, fonctionnelle et qui puisse durer dans le temps.

Grâce à notre expérience, notre compétence et notre organisation capillaire nous sommes en mesure d'offrir tout le support technique et technologique nécessaire pour le projet, le développement, la mise en œuvre et la maintenance de nos systèmes de conditionnement et en particulier :

- réalisation du projet
- préparation du schéma d'implantation
- installation et démarrage des conditionneuses
- formation et stages de perfectionnement du personnel
- fourniture des pièces de rechange originales
- service d'assistance technique

## ES

Nuestra misión es contribuir al éxito de nuestros clientes.

Siempre ofrecemos mucho más que la sola ejecución de una eficiente, funcional y durable línea de producción.

Gracias a nuestra experiencia, nuestras capacidades y nuestra organización capilar, estamos en condiciones de proveer servicio técnico y tecnología requerida para el diseño, desarrollo, implementación y mantenimiento de nuestras líneas de empaquetado aseptico, y en particular:

- Diseño y planificación del Sistema
- Preparación del Layout
- Instalaciones y comisionamiento de empaques
- Entrenamiento
- Repuestos Originales
- Asistencia Técnica

## RU

Наша миссия – обеспечить успех наших Клиентов.

Мы всегда предлагаем намного больше, чем создание эффективной производственной линии, функциональной и стабильно работающей в течение длительного периода времени. Благодаря накопленному опыту, высокой компетентности наших сотрудников, нашей широко разветвленной организационной структуре, мы готовы оказать техническую/технологическую поддержку и помощь, необходимую для проектирования, развития, запуска в режим производства и технического обслуживания наших систем асептического розлива, в частности:

- проектирование системы
- подбор и предложение систем вторичной упаковки
- подготовка планиметрии (lay out)
- монтаж, пусконаладочные работы, контрольные испытания и ввод в эксплуатацию асептических упаковочных машин
- обучение и повышение квалификации персонала заказчика
- поставка оригинальных запасных частей
- сервисное обслуживание и техническая помощь

# ASEPTIC PACKAGING LINE

**FILLER MACHINE**

**INK-JET**

**CAP APPLICATOR**

**STRAW APPLICATOR**

- EN  
In order to protect your products during delivery process, we are able to supply you with many secondary packaging solutions. The machines are designed to fully fit your aseptic brick lines. We can offer several machines such as cluster, shrink wrapper, case and tray packer, etc.. Thanks to our long experience in the aseptic packaging and delivery systems, we have defined a range of possible solutions for all your needs.
- IT  
Per la miglior protezione dei vostri prodotti in brick, siamo in grado di fornire un'

ampia gamma di soluzioni di imballaggi secondari quali: cluster, termoretraibile, incartonatrici con scatola chiusa o aperta, ecc. La nostra offerta è un risultato di un'esperienza pluriennale nella fornitura di soluzioni integrate nel confezionamento asettico.

- FR  
Afin de protéger au mieux vos produits en briques, nous sommes en mesure de fournir une vaste gamme de solutions d'emballages secondaires tels que clusters, filmeuses, encartonneuses à caisses fermées ou ouvertes etc. etc. Notre offre est le résultat d'une expérience de plusieurs années dans la fourniture de

solutions intégrées pour le conditionnement aseptique.

- ES  
Para una mayor protección de sus productos envasados, les podemos ofrecer una amplia gama de soluciones para el embalaje secundario, como pueden ser: máquinas agrupadoras de tres envases en cartón, máquinas termoretráctiles, máquinas encartonadoras en caja abierta o cerrada, etc. Todos nuestros equipos son el resultado de una larga experiencia en el desarrollo de soluciones en el envasado aséptico.

- RU  
Для обеспечения наилучшей сохранности вашей продукции при транспортировке, мы готовы предложить широкую гамму решений по вторичной или групповой упаковке: автоматы по упаковке в картонный или термоусадочный кластер, короб или лоток. Наше предложение основано на многолетнем опыте поставок комплексных, интегрированных линий асептического розлива.
